

CC400/CC540/CC550 Center Channel Speakers

All of the speakers in your home theater setup are essential in creating your cinema experience. Simultaneously they unite, bringing together the soundtrack, the ambient sounds, the excitement, the emotion—and the occasional explosion.

But the center channel carries the most critical information—the dialog. Since the inception of multi-channel theater sound, the center channel has been at the heart of the surround sound revolution.

Timbre-matched with Proficient's entire line of Ceiling and Wall Series speakers, the CC400/CC540/CC550 Center Channel Speakers are a perfect match with any satellite and sub configuration for a complete home theater system. The engineering team at Proficient created the dual woofer, dual port design to provide the wide dispersion necessary to properly deliver center channel information for your home theater setup. And with a three-way system sporting a center-located midrange and tweeter*, dialog *or* music comes through with the utmost in clarity, punch, and sizzle.

Quality, through and through. Exactly what you'd expect from a premium brand like Proficient.

*CC525/540 only. CC400 is two-way.
